📍 Cebu City, Philippines

I am an accomplished iOS Developer with over three years of practical experience. My expertise lies in crafting engaging applications for iPhoneOS, macOS, tvOS, and iPadOS. I excel in conceptualizing user-friendly designs and implementing them with precision. I possess a knack for troubleshooting and debugging, and I am committed to delivering high-quality solutions that enhance the user experience and drive success in Apple's ecosystem.

Experience

ApexTech IT solutions Inc

2024 - Present

- Contributed as a proficient iOS Developer, where my primary responsibilities included designing, developing, and maintaining innovative applications for Apple's ecosystem,
- Problem Solving: Demonstrated a strong aptitude for identifying and resolving complex issues through systematic debugging and root cause analysis.
- Performance Optimization: Implemented performance optimization techniques, including memory management and code refactoring, to enhance app efficiency and user satisfaction.

Kyocera Document Solutions Development Phil. Inc.

2021 - 2024

- Led development of a multi-platform app for iOS, iPadOS, and macOS.
- Created backend libraries for iOS, Android, Windows, macOS, and Linux.
- Served as Scrum Master, leading Agile processes and team coordination.
- Collaborated with cross-functional teams to ensure project success.
- Developed and integrated RESTful APIs to support app functionality.
